## UPCOMING SHOWS

Sunday 31<sup>st</sup> May  
Anniversary Show  
Cannington Exhibition Centre  
Cnr Albany Hwy and Station St  
Cannington  
Judge: Robert Brown

Please note that no cavy is to be sold for less than \$25. Please bring boxes for your cavies to go to their new home in!

Benching fee of \$3 for every cavy sold, there will be no fee for unsold cavies.

Please attach detail tags to your cages BEFORE placing cages on the For Sale table. This will help prevent so much congestion at the table.

Only the person in charge of the For Sale section, or their authorised assistant, can sell cavies. Your money will be available from 3:45 onwards.

**No straw, hay, sawdust or shavings are allowed at shows.**

Apart from a quick last minute 'brush up' NO GROOMING allowed at shows. If it is not groomed before the show you will have to put it on the table ungroomed!

## Sheet Roster 2009

## Editor's Rant

I hope everyone has enjoyed getting back into this show season.

However I have a bit of a gripe, at the last show I was somewhat ashamed to see the judge helping to clean the hall while most of the club members where outside. Come on people, many hands make light work. It should not be the same people who are cleaning up every time, and certainly should not be the guest judge! Even though I much appreciate her help, it is not right.

There are many reports of clubs having to fold, not from the lack of members, or of funds, but from the lack of people willing to do any work. One of the pigeon clubs that I belonged to, has folded for just this very reason. Plenty of people willing to go to the shows, but too few wanting to be on the committee and such. End result, no club, no shows. It should be a warning to us all.

## More on Grass

By Barbara Grieve

I should like to respond to Sharon's article on GRASS (page 7 Vol 15 Issue 2 of CAVY COMMENT)

Grass is a Cavy's birthright (so-to-speak.) They require grass and they deserve it. In the wild they live in, hide in and eat the long grass. They make tunnels of grass leading to hollows of grass in which they hide from their predators and have their pups. There is nothing more natural than grass for a cavy. I am not suggesting that is all they need or eat, they eat and need a vast variety of vegetation.

I grow elephant grass, sugar cane, and papyrus grass for my cavies and they also have any of the wild grasses which grow as weeds. (I also feed Mulberry, Lillypilly, Asian Spinach, Perpetual Spinach and deciduous tree leaves (these are fine if dry as well as they are like hay.)) At a guess I would say I feed about as much dry food to my cavies as Sharon has noted. In general owners feed far too much dry food to their cavies. My rule of thumb is that if there is any dry food left at the time of next feeding, THEY HAVE BEEN GIVEN TOO MUCH! Don't worry that they haven't had enough for there should be grass and other vegies to fill the gap and of course, there should always be good quality hay. Please bear in mind that hay is for eating.

I prefer to use Thompson & Redwood Goat Muesli for my grain feed as it holds all the requirements PLUS it is natural feed, not processed. This is a very important quality. ALL PELLETS ARE PROCESSED and it does not matter if any product claims to have added Vitamin C, the fact is that Vitamin C deteriorates rapidly and cavies still need a daily amount of fresh vegies, fruit etc containing this Vitamin as they cannot manufacture it themselves just as humans cannot. So if in doubt add Sodium Ascorbate at dosage of 1/8 teaspoon for 16 cavies. (overdose will pass through kidneys if Sod Ascorb. Ascorbic Acid too acidic for cavies.)

## HANDY HINT

by Barbara Grieve

This handy hint was passed on to me by Suzette Rudrum.

Corn and grasses etc can be grown in polystyrene boxes such as those

Cavy Comment – The Official Newsletter of Cavy West

thrown out by Vegie Stores etc. Ones with a few slits or holes in are better for drainage. The ones with no holes make excellent insulation for your caviary roof. Cut the edges off to make them flat. Flat ones are also available if you keep a lookout and sometimes there will be foam advertised for insulation. So keep this in mind and get ready for next summer.

# Vitamin B9 and Cavies

By Peter Ricci

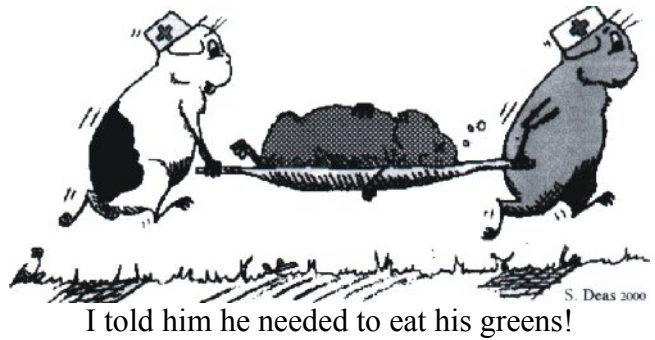

As many would know, like primates, Cavies lack the ability to produce their own Vitamin C within their bodies, therefore making Vitamin C an essential dietary requirement for cavies. However, did you know that Vitamin B9 is also a dietary essential for cavies? Cavies are one of the species most susceptible to Vitamin B9 deficiency.

So what is Vitamin B9? Vitamin B9 is found in the form of Folic acid and Folate. It is found widely in many food sources in a precursor form, which is then changed in the body by enzymes to the active form of Vitamin B9. It has major roles in the body to help with energy utilisation and body metabolism.

Some of the best food sources of Vitamin B9 include meats (which actually don't help our herbivorous cavies all that much), mushrooms, the husks of grains, oilseeds (such as soy) and most importantly leafy greens.

Vitamin B9 deficiency is often associated with iron or Vitamin C deficiency. A lack of iron or Vitamin C in the body inhibits the cavy's ability to convert the precursor to the active Vitamin B9 form. Deficiency of Vitamin B9 is often associated with anaemia (a lack of red blood cells in the circulation), dermatological lesions (skin lesions) and poor growth.

So how do you prevent Vitamin B9 deficiency in your cavies? It is as simple as providing them with a regular source of green leafy vegies and grasses in their diet. A healthy diet makes for a healthy cavy.

## HOW TO PROPERLY PLACE NEW EMPLOYEES

Some Advice to the HR department:

1. Put 400 bricks in a closed room.
  2. Put your new employees in the room and close the door.
  3. Leave them alone and come back after 6 hours.
  4. Then analyse the situation:
    - a. If they are counting the bricks, put them in the Accounting Department.
    - b. If they are recounting them, put them in Auditing.
    - c. If they have messed up the whole place with the bricks, put them in engineering.
    - d. If they are arranging the bricks in some strange order, put them in Planning.
    - e. If they are throwing the bricks at each other, put them in Operations.
    - f. If they are sleeping, put them in Security.
    - g. If they have broken the bricks into pieces, put them in Information Technology.
    - h. If they are sitting idle, put them in Human Resources.
    - i. If they say they have tried different combinations, they are looking for more, yet not a brick has been moved, put them in Sales.
    - j. If they have already left for the day, put them in Marketing.
    - k. If they are staring out of the window, put them in Strategic Planning.
    - l. If they are talking to each other, and not a single brick has been moved, congratulate them and put them in Top Management .
- Finally, if they have surrounded themselves with bricks in such a way that they can neither be seen nor heard from, put them in Government.

# Championship Registrars Report.

Ken Hart

Unfortunately I found the championship records to be in a state of considerable disrepair when I took over as Registrar. I have set about trying to resurrect the records so that we have a "hopefully complete list of Western Australian Champions that will date back to when Cavy West was established. Going back further than that will be more problematic but I will see what is possible when I have the first part of the task complete. It seems that a number of members may not have been presented with certificates for their eligible champions. If you think that this may affect you can you please contact me, preferably by email and I will check whether your cavy is eligible.

This year has exploded out of the blocks after the false start for the Young Stock Show mach I. We have two new Champions and one new Double Champion. Congratulations to both the exhibitors and breeders.

Champion Glen Ellen Shari, a Golden DE American Crested Sow, owned by Matt and Peter Ricci and bred by Glenys Blinco. Best of Breeds were awarded at the Osborne Park club show 2008, judged by Sharon Deas. South Perth club show, 2008, judged by Sharon Deas. Canning Agricultural Show 2008, judged by Ken Hart. Christmas Show 2008, judged by Glenn Macey. And West Perth Club Show 2009, judged by Sharon Deas.

Champion Piggylicious Ice Dream. A Satin Self White PE, owned and exhibited by Suzette Rudrum. Best of Breeds were awarded at the Anniversary Show 2008, judged by Melanie Barnes. Perth Royal Show 2008, judged by Ken Peddersen. Canning Agricultural Show 2008, judged by Ken Hart. The Christmas Show 2008, judged by Vernon Claypole. And the West Perth Club Show 2009, judged by Sharon Deas.

Double Champion Kenmar White Lace. An English Crested White PE bred and exhibited by Susan Pelleymounter. Best of Breeds have been awarded at The Perth Royal Show 2007, judged by Peter Wright. Kelmscott Agricultural Show 2007, judged by Glen Macey. Canning Agricultural Show 2007, judged by Liz Hart. Osborne Park Agricultural Show 2007, judged by Sharon Deas. Young Stock Show 2008, judged by Liz Hart. WA State Open 2008, judged by Cory Haugh. Anniversary Show 2008, judged by Melanie Barnes. South Perth club show 2008, judged by Sharon Deas. Mardella club show 2008, judged by Vernon Claypole. And West Perth Club Show 2009, judged by Sharon Deas.

I must apologise for the list of 2008 champions that were published in the last newsletter. That list was not official and contained errors. The correct list is detailed below.

## Champions 2008
