UPCOMING SHOWS

Royal Agricultural Show
Saturday 8th October
Claremont Show Grounds
Judge: Melanie Barns

Canning Agricultural Show
Saturday 5th November
Cannington Show Grounds
Judge: Peter Ricci (trainee)

Please note that no cavy is to be sold for less than \$35. Please bring boxes for your cavies to go to their new home in.

All cavies must be in good health and over 250 grams in weight. Free from any break in the skin or hair loss.

A card will be given to each purchaser, with Cavy West contacts and the breeders name. This is to guarantee the health of the sold cavy and for further information.

Benching fee of \$5 for every cavy sold, there will be no fee for unsold cavies.

Please attach detail tags to your cages BEFORE placing cages on the For Sale table. This will help prevent so much congestion at the table.

Only the person in charge of the For Sale section, or their authorised assistant, can sell cavies. Your money will be available from 3:45 onwards.

No straw, hay, sawdust or shavings or other loose bedding, are allowed at shows and this includes the For Sale section.

Apart from a quick last minute 'brush up' and Longhairs, NO GROOMING allowed at shows. If it is not groomed before the show you will have to put it on the table ungroomed!

YOU CAN FIND CAVY WEST ON THE NET!

Growing Vegetables for your "Family"

by S Deas

There are many wonderful things about growing your own vegies. For one thing is the taste, you have never tasted corn unless you have cooked and eaten it within minuets of picking it, or eating peas out of the pod as you picking them in the garden.

Homegrown vegies are sweeter, tender and (hopefully) free from chemicals.

Not only can you give your family a lovely fresh cauliflower, but there are all those luscious leaves for the cavies!

All excess vegetables (always plant extra, just so you have plenty of excess) and those that that are not perfect, can all go to your cavy 'family.'

There is no need to have a special area for growing vegetables. Instead of having an

ornamental garden around the house, make it a vegie garden. Just make sure the vegies can get enough sun. I am fortunate that the front of my house is also the south side of the house, and as such does not get enough

Cavy Comment – The Official Newsletter of Cavy West

sun for vegetables so it is still an ornamental garden. The rest of the garden however has now mostly been given over to vegetables. It still looks nice and it is useful too.

The cavies provide some lovely compost which is wonderful for the garden and with a bit of extra blood and bone, the vegies do well. Put the compost on as you plant the seedlings and again half way through the growing period. Fertilise with a liquid fertiliser once a fortnight and you will have plenty of

vegetables for the whole family, including the furry ones!

Even while the vegies are growing, you can often harvest the lower leaves of many plants for the cavies. Even the weeds you take out

of the vegie garden are cavy food.

So even if your family complains about you wanting to grow the lawn long for cavies, they will be proud of all your effort you have put into the vegie garden just so you can provide the very best and freshest vegies for the family.

We will not tell them that the family you are mainly growing them for just happens to have fur.
